

WHAT IS THE HYDE AMENDMENT

The Hyde Amendment prohibits federal funding for most abortions.

Hyde became law in 1976.

Both parties in Congress and previous administrations have supported Hyde since it became law. The majority of Americans support Hyde.

Hyde has saved the lives of over 2.4 million Americans and respects the consciences of Americans who do not want to pay for abortions.

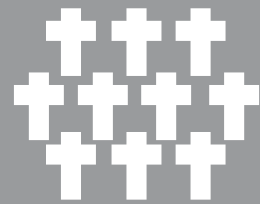

WHAT IS HAPPENING WITH THE HYDE AMENDMENT

The Hyde Amendment was excluded from the American Rescue Plan Act on March 11.

Despite its bipartisan history, the Biden Administration and many members of Congress have expressed their intention to repeal Hyde.

Without Hyde, billions of taxpayer dollars could be used to pay for abortions and many more lives will be lost.
